T.2.1 List of returnable documents

1 Documentation to demonstrate eligibility to have tenders evaluated

- Enterprise declaration including all the associated supporting documentation listed in such the declaration
- Audited Annual Financial Statements Declaration

Note: Failure to provide these documents will result in the tender not being evaluated

2 Returnable Schedules required for tender evaluation purposes

The tenderer must complete the following returnable schedules as relevant:

- Record of Addenda to Tender Documents
- Proposed amendments and qualifications
- Compulsory Declaration
- Preferencing Schedule: Broad Based Black Economic Empowerment Status
- Evaluation Schedule 1: Principal Consultant (*key person*)
- Evaluation Schedule 2: Value added by Tenderer
- Evaluation Schedule 3: Approach paper

The Tenderer's attention is drawn to the eligibility criteria which require the tenderer to provide the required evidence in their tender submissions in order to be eligible to have their tenders evaluated. Tenderers who fail to provide the required documentation will not have their tenders evaluated.

3 Other documents required for tender evaluation purposes

The tenderer must provide the following returnable documents:

- B-BBEE Verification Certificates issued by a verification agency accredited by the South African National Accreditation System (SANAS) or, in the case of an Exempted Micro Enterprise or a Qualifying Small Enterprise, if permitted in terms of the relevant code, a duly completed sworn affidavit on the relevant and appropriate form obtained from one the following websites (see Enterprise Declaration)

4 Returnable Schedules that will be used for tender evaluation purposes and be incorporated into the contract

The tenderer must complete the following returnable documents:

none

5 Other documents that will be incorporated into the contract

C1.1 Offer portion of Form of Offer and Acceptance

C1.2 Contract Data (Part 2)

C2.2 Staff rates

C2.3 Adjustment factor

Failure to sign the form of offer and acceptance will render the tender “non-responsive”

The Tenderer’s attention is drawn to Part 2 of the Contract Data which requires the Tenderer to tender staff rates. Failure to tender the staff rates will render the tender non-responsive. Failure to tender the staff rates in the prescribed manner may compromise the competitiveness of the tenderer.

Compensation events which result in changes to the Prices or to establish Prices in the Task Schedule are assessed on the basis of time charges (i.e. the products of each of the staff rates multiplied by the total staff time appropriate to that rate properly spent on work in the contract).

Tenderers need to price these staff rates realistically as they will be taken into account when evaluating tender offers – see Tender Assessment Schedule.

NOTE 1 The Standard Conditions of Tender contained in SANS 10845-3 prohibits anticompetitive practices (clause 3.1) and requires that tenderers avoid conflicts of interest, only submit a tender offer if the tenderer or any of his principals is not under any restriction to do business with employer (4.1.1) and submit only one tender either as a single tendering entity or as a member in a joint venture (clause 4.13.1). Clause 5.7 also empowers the Employer to disqualify any tenderer who engages in fraudulent and corrupt practice. Clause 3.1 also requires tenderers to comply with all legal obligations.

NOTE: 2 Corrupt activities which give rise to an offence in terms of the Prevention and Combating of Corrupt Activities Act of 2004) include improperly influencing in any way the procurement of any contract, the fixing of the price, consideration or other moneys stipulated or otherwise provided for in any contract and the manipulating by any means of the award of a tender.

NOTE:3 Section 4 of the Competition Act of 1998 prohibits restrictive horizontal practice including agreements between parties in a horizontal relationship which have the effect of substantially preventing or lessening competition, directly or indirectly fixing prices or dividing markets or constitute collusive tendering. Section 5 also prohibits restrictive vertical practices. Any restrictive practices that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties.

Preferencing schedule: Broad Based Black Economic Empowerment Status

Preamble

Section 10(b) of the Broad-Based Black Economic Empowerment Act of 2003 (Act No. 53 of 2003) states that “Every organ of state and public entity must take into account and, as far as is reasonably possible, apply any **relevant code of good practice** issued in terms of this Act in developing and implementing a preferential procurement policy.”

A number of codes of good practice have been issued in terms of Section 9(1) of the B-BBEE Act of 2003, including a generic code of good practice and various sector codes. The sector codes vary the metrics, weightings and targets used in the generic code of good practice to establish the overall performance of an entity and its B-BBEE status. The B-BBEE status needs to be assessed in accordance with the applicable code.

1 Conditions associated with the granting of preferences

Tenderers who claim a preference shall provide proof of B-BBEE status level of contributor in accordance with the requirements of section 2 in respect of the applicable code as at the closing time for submissions, failing which their claims for preferences will be rejected.

2 Proof of B-BBEE status level of contributor

Proof of B-BBEE status level of contributor shall be by means of

- the B-BBEE status level certificate issued by an authorised body or person;
- a sworn affidavit as prescribed by the B-BBEE Codes of Good Practice; or
- any other requirement prescribed in terms of the Broad-Based Black Economic Empowerment Act

3 Tender preferences claimed

The scoring shall be as follows:

Evaluation Schedule 1: Experience of Principal (*key person*) Consultant

The experience of the Principal Consultant (Key Consultant whose name is stated as such in Part 2 of the Contract Data) will be evaluated i.e. the person who will provide the service or under whose active and personal direction, control and supervision the service is to be provided (see scope of work).

This will be undertaken in relation to:

- 1) Professional profile: professional qualifications, professional experience (total duration of professional activity), level of education and training and positions held which have a bearing on the services which may be required.
- 2) Experience in relation to the services which may be required in terms of the scope of work

A CV of the Principal Consultant of **not** more than 4 pages must be attached to this schedule. Each CV should be structured under the following headings:

- 1 Personal particulars
 - name
 - date and place of birth
 - place (s) of tertiary education and dates associated therewith
- 2 Qualifications (degrees, diplomas, grades of membership of professional societies and professional registrations)
- 3 Name of current employer and position in enterprise
- 4 Overview of post graduate experience (year, organization and position / responsibilities)
- 5 Outline of assignments / experience that has a bearing on the required services giving dates, nature and scope of similar services that have been undertaken including the level of responsibility
- 6 Professional activities which have a bearing on the service

Certificates / suitable proof of membership must be attached to this schedule

The scoring will be as follows:

Rating / score	Professional profile which may have a bearing on the required services	Experience in relation to the service
0	Tenderer has submitted no information or inadequate information to determine scoring level or does not have an appropriate professional profile or experience.	
Poor (score 40)	Principal Consultant has a limited professional profile	Principal Consultant has limited levels of experience which relates to the proposed scope of work
Satisfactory (score 70)	Principal Consultant has reasonable professional profile	Principal Consultant has reasonable levels of experience which relates to the proposed scope of work
Good (score 90)	Principal Consultant has an extensive professional profile	Principal Consultant has extensive levels of experience which relates to the proposed scope of work
Very good (score 100)	Principal Consultant has outstanding professional profile	Principal Consultant has outstanding levels of experience which relates to the proposed scope of work

Name of proposed Principal Consultant (*key person*):

The undersigned, who warrants that he / she is duly authorised to do so on behalf of the tendering entity, confirms that the contents of this schedule are within my personal knowledge and are to the best of my belief both true and correct.

Evaluation Schedule 2: Value add by tenderer

The value added by the tenderer in delivering the service will be evaluated i.e. the answer to the question as to why the Employer will derive better value for money by contracting with the tenderer and making use of the Principal Consultant that is offered for the proposed service rather than with any other tenderer and their offered Principal Consultant.

Examples of value add may include:

- institutional memory which can be used to underpin the service;
- availability to engage with the Employer on specific issues
- insights gained from previous work of a similar nature;
- approaches to the proposed service and the countering of perceived risks;
- access to specialist expertise;
- internal quality control systems;
- previous or current work related to the required service;
- depth of in-house expertise apart from that residing in the Principal Consultant;
- networks of expertise which can be tapped into;
- local and international access to information / knowledge relating to the required and related services;
- experience in and working on projects where the NEC3 conditions of contract are applied;
- access to internet or library access to specialist literature or internal libraries and facilities
- software packages, proprietary products, equipment etc

The tenderer should specifically outline the value add with respect to the following:

- administering the cost aspects of the NEC3 family of contract and in particular the management contractor option (Option F)
- administering cost plus contracts
- applying cost norms on public sector projects
- developing procurement documents in accordance with the provisions of the SANS 10845-2, *Construction Procurement - Part 2: Formatting and compiling procurement documents*, and the Employer's policy for infrastructure procurement and delivery management.
- managing public sector procurement processes in accordance with legislative provisions
- controlling costs associated with educational facilities

The tenderer should furthermore indicate the software packages which it is able to deploy in providing the service.

The tenderer must briefly outline the value add offered in not more than six pages and attach this to this page. The tenderer should also state what value add other staff members will provide to the service and refrain from submitting generic company literature.

The scoring of the tenderer's value added will be as follows:

0	Tenderer has submitted no information or inadequate information to determine scoring level.
Poor (score 40)	Tenderer offers limited value add to the required service
Satisfactory (score 70)	Tenderer offers attractive value add to the required service
Good (score 90)	Tenderer offers very desirable value add to the required service
Very good (score 100)	Tenderer offers exceptional value add to the service required.

The undersigned, who warrants that he / she is duly authorised to do so on behalf of the enterprise, confirms that the contents of this schedule are within my personal knowledge and are to the best of my belief both true and correct.

Evaluation Schedule 3: Approach paper

The approach paper must outline the tenderer’s proposed approach to cost estimation of buildings, multi year and multi project budget and cashflow estimation, controlling costs on the proposed projects within buildings in an integrated manner, highlighting the manner in which interaction with the professional team will take place.

The approach paper should in broad terms:

- explain the methodologies which are to be adopted in setting an integrated portfolio and individual project control budget, in ensuring that the design as it is developed and finalised remains within the control budget and in controlling costs particularly during the implementation phase of the project;
- demonstrate the compatibility of those methodologies with the proposed approach;
- articulate what value add the tenderer will provide in achieving the stated and implied objectives for the controlling of costs; and
- indicate what expertise and software packages are available to the tenderer to control costs

The tenderer must attach his / her approach paper to this page. The approach paper should not be longer than 6 pages.

The scoring of the approach paper will be as follows:

Technical approach and methodology	
Score 0	Tenderer has submitted insufficient information to score the schedule
Poor (score 40)	The technical approach and / or methodology is poor / is unlikely to satisfy project objectives or requirements. The approach lacks strategic thinking / expertise and does not deal with the critical aspects of integration.
Satisfactory (score 70)	The approach, although likely to satisfy objectives is generic and not tailored to address the specific project. The approach does not adequately deal with the critical characteristics of the project.
Good (score 90)	The approach is specifically tailored to address the specific project objectives and methodology and is sufficiently flexible to accommodate changes that may occur during execution.
Very good (score 100)	Besides meeting the “good” rating, the important issues are approached in an innovative and efficient way, indicating that the tenderer has outstanding knowledge of state-of-the- art approaches. The approach paper details ways to improve the project outcomes and the quality of projected outputs

The undersigned, who warrants that he / she is duly authorised to do so on behalf of the enterprise, confirms that the contents of this schedule are within my personal knowledge and are to the best of my belief both true and correct.

Tender Assessment Schedule

This schedule is for information only and does not need to be completed. The evaluators will apply this schedule to arrive at a comparative offer in the evaluation of tenders

WARNING: Tenderers who tender different pricing parameters (i.e. alternative offers) may compromise their competitive position e.g. by tendering Rands per hour where a rate in cents per hour / R100 of total annual cost of employment is required.

The parameters tendered in the Contract Data by the *Consultant* are to be reduced to a common base for comparative purposes as follows:

Assumed average time charge / hour for tender comparative purposes only

$$= f_1 \times A + f_2 \times B \times TAC / 100 / 100$$

where:

- f_1 is a weighting factors with a value of 0,6
- f_2 is a weighting factor with a value of 0,4
- A is the tendered maximum Rate / hour for staff in C2.2 Staff rates (Rate 1)
- B is the tendered cents per hour / R100 of total annual cost of employment for staff tendered in C2.2 Staff rates (Rate 2)
- TAC is the average total annual cost of employment with a value of R 650 000 which is assumed only for comparative purposes

$$= f_1 \times A + f_2 \times B \times TAC / 100 / 100$$

$$= 0,6 \times \dots + 0,4 \times \dots \times 650\,000 / 100 / 100$$

$$= .R \dots \dots \dots / .hour \quad \textcircled{1}$$

Comparative offer for tender evaluation purposes only

Assuming that 1000 hours of work are based on Time Charges, the cost of such work will be:

$$= 1000 \times \textcircled{1}$$

$$= 1000 \times \dots \dots \dots$$

$$= \dots \dots \dots \textcircled{2}$$

Fee based on cost of construction in accordance with Z5 in Part 1 of the Contract Data

$$\text{Fee percentage} = BFP \times F_{LE} \times F_{PO} \times F_{CON}$$

where BFP = basic percentage fee derived from the *Framework for the Determination of Professional Fees for Consulting Services* (see Annexure 3)

F_{LE} = adjustment factor that reflects the level of effort that is required as determined in accordance with the provisions of the *Framework for the Determination of Professional Fees for Consulting Services* (see Annexure 3) for services falling within the scope of work after the award of the contract

F_{PO} = tendered professional and technical staff rate expressed in cents / R 100 or part thereof of total cost of employment (see C2.2 Staff rates) (B) / 16

F_{CON} = tendered adjustment factor to reflect factors such as risk, productivity, efficiency, locality, local knowledge, particular methods or systems for delivering services, level of expenses that are not recoverable etc. (see C2.3 Adjustment factor).

Fee in Rands excluding VAT = fee percentage / 100 x cost of construction excluding VAT

Assuming that for comparative purposes only

$$\text{BFP} = 4,62$$

$$\text{F}_{LE} = 1,2$$

Cost of construction = R 50 000 000 excluding VAT

Fee in Rands = $\text{BFP} \times \text{F}_{LE} \times \text{B} / 16 \times \text{F}_{CON} / 100 \times \text{cost of construction excluding VAT}$

$$= 4.62 \times 1,2 \times \dots\dots\dots / 16 \times \dots\dots\dots / 100 \times 50\,000\,000$$

$$= \dots\dots\dots \textcircled{3}$$

Comparative offer for tender evaluation purposes only:

$$= \textcircled{2} + \textcircled{3} = \dots\dots\dots + \dots\dots\dots = \text{R}.\dots\dots\dots$$

Framework agreement for professional cost management services

C1.1 Form of Offer and Acceptance

Offer

The *Employer*, identified in the Acceptance signature block, has solicited offers to enter into a contract for the provision of services as described in Part 1 of the Contract Data.

The tenderer, identified in the Offer signature block, has examined the documents listed in the Tender Data and addenda thereto as listed in the Returnable Schedules, and by submitting this Offer has accepted the Conditions of Tender.

By the representative of the tenderer, deemed to be duly authorised, signing this part of this Form of Offer and Acceptance the tenderer offers to perform all of the obligations and liabilities of the *Consultant* under the contract including compliance with all its terms and conditions for an amount to be determined in accordance with the conditions of contract identified in the Contract Data without any guarantee of a quantum of work.

This Offer may be accepted by the *Employer* by signing the Acceptance part of this Form of Offer and Acceptance and returning one copy of this document including the Schedule of Deviations (if any) to the tenderer before the end of the period of validity stated in the Tender Data, or other period as agreed, whereupon the tenderer becomes the party named as the *Consultant* in the conditions of contract identified in the Contract Data.

Acceptance

By signing this part of this Form of Offer and Acceptance, the *Employer* identified below accepts the tenderer's Offer. In consideration thereof, the *Employer* shall pay the Consultant the amount due in accordance with the *conditions of contract* identified in the Contract Data. Acceptance of the tenderer's Offer shall form an agreement between the *Employer* and the tenderer upon the terms and conditions contained in this agreement and in the contract that is the subject of this agreement.

The terms of the contract, are contained in:

- Part C1 Agreements and Contract Data, (which includes this Form of Offer and Acceptance)
- Part C2 Pricing Data
- Part C3 Scope of Work

and drawings and documents (or parts thereof), which may be incorporated by reference into the above listed Parts.

Deviations from and amendments to the documents listed in the Tender Data and any addenda thereto listed in the Returnable Schedules as well as any changes to the terms of the Offer agreed by the tenderer and the *Employer* during this process of offer and acceptance, are contained in the Schedule of Deviations attached to and forming part of this Form of Offer and Acceptance. No amendments to or deviations from said documents are valid unless contained in this Schedule.

The tenderer shall within two weeks of receiving a completed copy of this agreement, including the Schedule of Deviations (if any), contact the *Employer's* agent (whose details are given in the Contract Data) to arrange the delivery of any securities, bonds, guarantees, proof of insurance and any other documentation to be provided in terms of the *conditions of contract* identified in the Contract Data. Failure to fulfil any of these obligations in accordance with those terms shall constitute a repudiation of this agreement.

Notwithstanding anything contained herein, this agreement comes into effect on the date when the tenderer receives one fully completed original copy of this document, including the Schedule of Deviations (if any). Unless the tenderer (now *Consultant*) within five working days of the date of such receipt notifies the *Employer* in writing of any reason why he cannot accept the contents of this agreement, this agreement shall constitute a binding contract between the Parties.

X20.2	A report of performance against each Key Performance Indicator is provided at intervals of three months

Z	Additional conditions of contract
----------	--

The *additional conditions of contract* are

Z1 Tax invoices

The *Consultant’s* invoice.

Delete the first sentence of core clause 50.2 and replace with:

Invoices submitted by the *Consultant* to the *Employer* include:

- the details stated in the Scope to show how the amount due has been assessed, and
- the details required by the *Employer* for a valid tax invoice.

Delete the first sentence of core clause 51.1 and replace by:

Each payment is made by the *Employer* within three weeks of receiving the *Consultant’s* invoice showing the details which this contract requires or, if a different period is stated in the Contract Data, within the period stated.

Z2 Selection and appointment of the *Adjudicator*

Add the following paragraph to clause W.1.2(1)

Within 2 weeks after declaring a dispute and if the *Adjudicator* was not yet appointed with a previous dispute, the notifying Party notifies the other Party of the names of two persons he has chosen from the Panel of NEC Adjudicators set up by ICE-SA, a joint division of the Institution of Civil Engineers and the South African Institution of Civil Engineering (see www.ice-sa.org.za), whose availability to act as the *Adjudicator* the notifying Party has confirmed. The other Party selects one of the two persons chosen to be the *Adjudicator* within four days of receiving the notice, failing which the person chosen by the notifying Party will be the *Adjudicator* for the Contract. The Parties appoint the selected *Adjudicator* under the NEC3 Adjudicator's Contract, April 2013.

Z3 Acts or omissions by mandatories

In terms of Section 37(2) of the Occupational health and Safety Act of 1993 (Act 85 of 1993), the *Consultant* hereby agrees that the *Employer* is relieved of any and all of its liabilities in terms of Section 37(1) of this Act in respect of any acts or omissions of the *Consultant* and his employees to the extent permitted by this Act, and that this contract comprises the written agreement between the *Employer* and the *Consultant* contemplated in section 37(2).

Z4 Expenses

If the Parties agree, estimates of *expenses* may be included in the lump sum prices in the Task Schedule which are assessed as compensation events.

Z5 Alternative basis for assessing compensation events

If the *Employer* and the *Consultant* agree, assessments for changed Prices for compensation events relating to the *services* may be based on a percentage of the construction cost determined in accordance with the provisions of the *Framework for the Determination of Professional Fees for Consulting Services* (see Annexure 3) where:

$F_{PO} =$ tendered professional and technical staff rate expressed in cents / R 100 or part thereof of total cost of employment as stated in the C2.2 Pricing Data / 16

$F_{CON} =$ tendered adjustment factor to reflect factors such as risk, productivity, efficiency, locality, local knowledge, particular methods or systems for delivering services, level of expenses that are not recoverable etc. as stated in C2.3 of the Pricing Data

The fees based on a percentage of the project cost includes all travelling time and travel costs associated with the provision of the service within a 150 km radius from the University of Venda's Thoyondou Campus

The total fee for each stage required in terms of the scope of work in Rands, determined in accordance with the provisions of the *Framework for the determination of professional fees for consulting services*, is entered as a lump sum amount in the Task Order. Such amounts may be further broken down should the *Consultant* so require.

Stages 3 and 4 (*Framework for the determination of professional fees for consulting services*) may be undertaken on a Time Charge basis. Such charges are then deducted from the lump sum amount determined for stages 3 to 9 if the construction cost is determined at the end of stage 4.

Z6 Vendor registration

The *Consultant* registers on the *Employer's* vendor database by completing the relevant Vendor Registration Form and providing all the required information.

One hundred percent of the Prices for Services Provided to Date is retained in assessments of the amount due until the *Consultant* has registered on the *Employer's* database.

Z7 Contract Date

In these *conditions of contract* each reference to the Contract Date is the date when the Task Order came into existence.

Z8 Price adjustment for inflation

Notwithstanding the provisions of X1

- (1) The provisions of X1.4 and X1.5 do not apply.
- (2) The *Consultant* calculates the *staff rates* at the Contract Date for all rates which are fixed and are not variable with changes in salary paid to individuals, by multiplying the *staff rates* contained in the Pricing Data by $1 + (L - B) / B$, where B is the last value of the *index* published before the *starting date* and L is the last published value of the *index* published before the Contract Date.

Z9 Key persons in Task Orders

- 1) *Key persons* to undertake specific jobs for the *Consultant* in respect of a particular Task may be included in a Task Order.
- 2) The *key person* named in Part 2 of the Contract Data in the Framework agreement whose responsibilities include the provision or the service or provision of active and personal direction, control and supervision of the *service* that is provided is the point of contact between the *Consultant* and the *Employer*. Such a person attends at least 80 percent of the regular progress meetings which may be convened during the execution of a Task.
- 3) The *Consultant*, in the event that the *key person* identified in 2) above is replaced, effects the replacement in a manner which minimizes the adverse effect of such replacement on the Employer and Others and provides continuity of the *services*.

Z10 Low performance damages for failing to adhere to the Accepted Programme

If the *Consultant* fails to adhere to the Accepted Programme and as a consequence is the primary reason for a delay in the finalization of an end-of-stage deliverable required in terms of the *Framework for the determination of professional fees for consulting services*, the *Consultant* pays low performance damages in the following amounts:

Delay in finalizing the deliverable	Amount
Up to 7 days	5% of the total of the Prices for the stage that is delayed
More than 7 days but less than 14 days	10% of the total of the Prices for the stage that is delayed
More than 14 days but less than 21 days	15% of the total of the Prices for the stage that is delayed
More than 21 days but less than 28 days	20% of the total of the Prices for the stage that is delayed
More than 28 days	25% of the total of the Prices for the stage that is delayed

Z11 Corrupt Acts

(1) A Corrupt Act is:

- the offering, promising, giving, accepting or soliciting of an advantage as an inducement for an action which is illegal, unethical or a breach of trust or
- abusing any entrusted power for private gain

in connection with a contract or any other contract with the *Employer*. This includes any commission paid as an inducement which is not declared to the *Employer* before the date of the acceptance of the *Consultant's offer*.

- (2) The *Consultant* does not do a Corrupt Act.
- (3) The *Consultant* takes action to stop a Corrupt Act of a subcontractor or a supplier of which it is, or should be, aware.
- (4) The *Consultant* includes equivalent provisions to these in subcontracts.
- (5) Add subclause 90.5

The *Employer* may terminate if the *Consultant* does a Corrupt Act, unless it was done by a subcontractor or a supplier and the *Consultant*

- was not and should not have been aware of the Corrupt Act or
- informed the *Employer* of the Corrupt Act and took action to stop it as soon as the *Consultant* became aware of it.

(6) Add the following first bullet to 92.2:

- the *Consultant* does a Corrupt Act or

Part C1.2 Contract Data

The *Consultant* is advised to read the NEC3 Professional Service Contract (Third edition with amendments of June 2006 and April 2013) and the relevant Guidance Notes and Flow Charts, published by the Institution of Civil Engineers, in order to understand the implications of this Data which is required. Copies of these documents may be obtained from the Engineering Contract Strategies (telephone (27) 011 803 3008).

Each item of data given below is cross-referenced to the clause in the NEC3 Professional Service Contract to which it mainly applies.

C2: Pricing Data

C2.1 Pricing assumptions (Option G)

C.2.1.1 General

C.2.1.1.1 The *Consultant* is paid under Option G (Term Contract) i.e. on a combination of Time Charges (sum of the products for each of the *staff rate* multiplied by the time appropriate to that *rate* properly spent on work in the contract) and a proportion of the lump sum price for each item on the Task Schedule in proportion to the work completed on that item.

C.2.1.1.2 *Expenses* as provided for in the contract are paid in addition to the total of the Time Charges and lump sum prices.

C.2.1.1.3 There is no adjustment to the lump sums for items in the Task Schedule if the amount, or quantity, of work within that activity later turns out to be different to that which the *Consultant* estimated at the time that the Task Schedule was accepted by the *Employer*. The only basis for a change to the lump sum prices is as a result of a compensation event (See Clause 60.1).

C.2.1.2 Staff rates

C.2.1.2.1 The *staff rates* are the prices charged for staff, excluding VAT, but including:

- a) all the costs to the *Consultant* including total annual cost of employment, overhead charges incurred as part of normal business operations including the cost of management, as well as payments to administrative, clerical, IT support and secretarial staff used to support professional and technical staff in general and not on a specific project only;
- b) the time and costs expended in travelling to and from a site, meetings or any other activity associated with the provision of the service, except for travel outside of a 150 km radius from the University of Venda's Thoyondou Campus authorised by the Employer
- c) non-recoverable expenses;
- d) all protective clothing and all standard equipment such as office furniture, copiers, plotters, computers and software used to perform the services; and
- e) profit.

C.2.1.2.2 The total annual cost of employment is the total amount borne by the *Consultant* in respect of the employment of a staff member per year comprising basic salary and fringe benefits not reflected in the basic salary, including:

- a) normal annual bonus,
- b) *Consultant's* contribution to medical aid, unemployment insurance fund, pension or provident fund,
- c) group life insurance premiums borne by the *Consultant*; and
- d) all other benefits or allowances payable in terms of a letter of appointment excluding any share of profit and payment for overtime.

C.2.1.2.3 The *staff rates* for staff whose hourly or monthly rate is based on the total annual cost of employment shall not exceed the staff rate for Rate 1.

C.2.1.2.4 The *staff rates* exclude VAT.

C.2.1.3 Expenses

C.2.1.3.1 The *expenses* that may be paid to the *Consultant* are as stated in the Contract Data. All other cost to the Consultant associated with Providing the Services is included within the staff rates.

C.2.1.3.2 All air travel shall be in economy class on a scheduled airline.

C.2.1.3.3 Accommodation means a

- a) a bed and breakfast;
- b) a guest house;
- c) self catering; or
- d) hotel having a star rating of 1, 2 or 3 as defined by the Tourism Grading Council of South Africa (see www.tourismgrading.co.za).

Note: A lodge, country house or 4 star or higher star rated hotel is not accommodation. Any stay in such a facility cannot be claimed as an expense.

C.2.1.3.4 A hired car means a motor vehicle having an engine capacity of not more than 1800cc.

Note: A hired car having an engine capacity greater than 1800cc is not a hired car and cannot be claimed as an expense

C2.2 Staff rates

The staff rates are:

Rate	Description	Basis of staff rate, excluding VAT	Tendered parameter
1	<ul style="list-style-type: none"> Director, member or partner Senior professional staff whose calculated rate per hour equals or exceed the maximum hourly rate 	Rate per hour in Rand	R
2	<ul style="list-style-type: none"> Professional staff, who are appropriately registered with a statutory council with adequate expertise and relevant experience, who carry direct professional responsibility for one or more specific activities related to the services; and Technical staff with adequate expertise and relevant experience performing work with direction and control provided by professional staff. 	Rate per hour in Rand based on cents per hour for every R100 total annual cost of employment cents

EXAMPLE: The hourly rate that is calculated for Rate 2 is as follows:

Assuming that a rate of **15 cents** per hour for every R 100 total annual cost of employment is tendered and the total annual cost of employment is R 400 000 per annum, the calculated hourly rate will be as follows:

$$15 / 100 \times 400\,000 / 100 = R600 \text{ per hour}$$

NOTE The hourly rate for Rate 2 is based:

a) the total annual cost of employment multiplied by a staff multiplier which takes into account factors such as:

- staff utilization rates;
- cost of employment of non-fee earning staff (i.e. administrative staff); and
- company overheads which may include communication costs, office accommodation costs, transport not directly covered by projects, consumables, audit, bank and finance charges, insurance, marketing, office equipment, training and development, non-recoverable expenses, head office expenses etc. ; and
- mark up for profit; and

b) the time available in a year after weekends and public holidays and allowances for leave and sick leave are taken into account.

If a multiplier of 2,64 is applied to a total annual cost of employment of R 400 000 per annum where the available hours in a year are 1760, the hourly rate = $400\,000 \times 2,64 / 1760 = R600$

C2.3 Adjustment factor

The adjustment factor is:

Adjustment factor	Description	Tendered value (a number)
F _{CON}	An adjustment factor (F _{CON}) (see <i>Framework for the determination of professional fees for consulting services</i>) (see Annexure 2) used in the calculation of the fee percentage to reflect factors such as risk, productivity, efficiency, locality, local knowledge, particular methods or systems for delivering services, level of expenses that are not recoverable, alignment of services with scope of work etc.

NOTE Refer to clause Z5 in the Part 1 of the Contract Data and the *Framework for the determination of professional fees for consulting services* to understand how the adjustment factor is applied

Framework agreement for professional cost management services

C3: Scope of work

1 Purpose of the service

1.1 Employer's objectives

The Employer's objective in entering into a framework agreement over a three year term, on an as and when instructed basis, is to secure the services of a professional cost management service provider to serve the Employer's needs and requirements in the construction of new infrastructure and the refurbishment, repurposing, rehabilitation or alteration of existing infrastructure on its Thoyondou Campus and, in particular to finalise the Health Sciences Building.

1.2 Background

1.2.1 General

The University of Venda's main campus, which was established 1982, is located in Thohoyandou. The University has, as indicated below, received a number of Infrastructure Efficiency Grants from the Department of Higher Education and Training to refurbish or upgrade their existing facilities and to expand their current facilities.

Funding cycle	Description	Approved project amount
First infrastructure cycle 2007/08 to 2009/10	Infrastructure projects <ul style="list-style-type: none"> Construction of new lecture theatre blocks Construction of new life and chemical sciences building; including a section for environmental sciences Construction of new student administration building Construction of extension to library, and reconfiguration of library space Conversion and renewal of buildings: to provide new space for mathematical and physical sciences and for student services 	R 216 m
	Curriculum development (efficiency projects)	R 42 m
Second infrastructure cycle 2010/11 and 2011/12	Undergraduate life and physical sciences (extension to agriculture complex and furniture for new building extension) Student housing (new student residence and furniture for new student residence) Teacher training (extension to Education Building and furniture for new building extension) New 86 seater conference hall	R 91,2 m
Third infrastructure cycle 2012/13 to 2014/15	Disability Health Sciences Well Founded Student Housing in HDI's Teacher Education African Languages, Humanities and Social Sciences Infrastructure Backlog in HDI's Project Management	R339,7 m
Fourth infrastructure cycle 2015/16 to 2017/18	University priority projects (e.g. towards Disability access, well-founded laboratories, security upgrades and ICT projects) Maintenance Student Housing	R 169,3 m

Fifth infrastructure cycle 2018/19 to 2020/21	Roads Infrastructure and Punda Maria Gate Installation of fume cupboard New lecture hall School of law new building Replacement and installation of lab furniture at various buildings School of Education classrooms	R 314 349 000
--	--	---------------

A number of the third cycle projects with the exception of the Health Science Building and a portion of the Teacher's Education Building are not yet complete. The remainder of the buildings have only recently been completed following the putting in place of additional internal capacity to specify, procure and deliver these projects .

The fifth cycle funding has been reduced and reprioritised to complete the underfunded 1800 bed DBSA funded student residences and to bring the Health Sciences Building which has serious structural defects to completion. The possibility exists that some of the fifth cycle projects will be carried over to a sixth infrastructure cycle.

External professional capacity is required to plan, design, manage and commission the sixth cycle projects through a design by client, design and construct or develop and construct contracting strategy, based on the NEC3 Engineering and Construction Contract Options A or B.

1.2.2 Health Science Building

Funding was obtained by UNIVEN from Department of Higher Education and Training (DHET) in the Third Infrastructure cycle (2012/13 to 2014/15) for the Health Science Building, comprising, a 2 150 Seater Lecture Rooms, 19 Offices, 4 Seminar Rooms, 2 Health Laboratories, 2 Classrooms, 4 Meeting Places. 4 Meeting Rooms, 2 Kitchens and Stores, Ablutions, 2 Nutrition Laboratories, 1 Food Science Laboratory, 1 Cold Room and 1 Lift. Construction commenced on the on 21 March 2015. The expectation was that it would be completed by 21 July 2016 .

The Health Science Building was intended to be an architectural landmark building. It is a multi storey reinforced concrete frame building with a void below the first floor.

An underqualified professional team and a contractor who was not up to the challenge were appointed through UNIVEN's SCM system to construct this landmark building. The contractor lacked financial capacity to perform the works which resulted in a slow pace of progress.

Members of the DHET's MIF Support Team visited the site during August 2019 and observed several potential shortcomings in the fire and structural safety performance of the building. This team commissioned an experienced and credible structural engineer and an architect to review the structural and fire safety performance of the building. On advice from this team, all construction work was stopped during October 2019. The contracts with the contractor and the professional team have subsequently been terminated.

The findings of the structural engineer and architect may be summarised as follows:

- 1) There are some serious structural issues relating to the concrete structure (no shear walls, unbalanced cantilevers on the ends of the building, staircase stringers having insufficient depth and missing supports etc.)
- 2) The steelwork supporting the cladding over the buildings will most probably have to be taken down to rectify the design and construction deficiencies and reassembled should the building be built as per the current plans.
- 3) There are a number of structural shortcomings in some of the masonry walls (high wall near the auditorium and end walls of the multi-storey portion of the building).
- 4) There is also a potential non-compliance with the fire escape distances.

The University has recognised that the building is seriously compromised requiring a ground up approach as to how to proceed to complete the project. In order to mitigate excessive risk pricing which will result in a significant cost premium in completing the building, the Employer has embarked upon the following course of action to mitigate such risks as follows:

- 1) terminate all contracts associated with the delivery of this project;
- 2) appoint a management contractor on a cost-plus basis to undertake the necessary professional and construction services to complete the building, based on the contractor's design proposals and the approach as outlined above and to obtain the necessary certificate of occupancy from the Thulamela Local Municipality;
- 3) retain the services of the DHET appointed structural engineer and architect to assist the UNIVEN client delivery management team with the briefing of the management contractor and his professionals and advise on the appropriateness, implications and acceptability of the management contractor's proposals and work that is undertaken; and
- 4) obtain the full time services of a suitably qualified person with at least 10 years experience in the management of the physical construction process associated with buildings and infrastructure within building precincts to function as the Project Manager and Supervisor in accordance with the provisions of the NEC3 Engineering and Construction Contract.

The NEC3 Engineering and Construction Contract (ECC), Option F (Management contract) will form the basis of the framework contract entered into with the Employer. The management contractor's responsibilities for construction work are the same as those of a contractor working under one of the other options provided in the NEC3 ECC. However, the management contractor performs only a limited amount of construction works typically relating to site establishment and de-establishment. The remainder of work is contracted from sub-contractors and suppliers who will be subcontracted through direct contracts with the contractor, who acts as a management contractor.

The contractor will accordingly be required to appoint any built environment professionals as may be necessary to complete the building and obtain the necessary certificate of occupancy from the Thulamela Local Municipality.

The management contractor tenders his Fee and is paid on a cost reimbursable basis i.e. defined cost uplifted by his fee percentage. Defined cost includes subcontract amounts and the prices of the work done by the contractor himself less disallowed cost. Disallowed cost includes costs not justified by accounts and records, costs not in accordance with a subcontractor's contract, costs incurred because procedures were not followed and payment to a subcontractor for work which the contractor is to do himself and the contractor's management.

The management contractor is responsible for supplying management services. The management contractor's fee will increase if subcontractors' prices (part of defined cost to the contractor) increase due to compensation events. However, he will not receive separate payment for his work in dealing with compensation events and he will not receive any additional fee for work on compensation events which does not lead to an increase in subcontractors' prices.

Package orders will be introduced into the contract to create a framework agreement to enable the contractor to tackle the works on a piecemeal or as instructed basis. The contractor will identify the resources required to complete the work and develop an overall programme for the works. He will then scope the work associated with each package order and price such order at open market or competitively tendered prices with deductions for all discounts, rebates and taxes which can be recovered. The package order will be finalised in consultation with the Employer. Once agreement is reached on the order, the contractor may execute the order within a stipulated period or incur delay damages.

This incremental approach to completing the building will enable risk pricing to be minimised as work will be priced when the unknowns become knowns. It also provides flexibility in finalising the work within a reasonable budget as there can be interaction between the Employer and the contractor regarding the finalisation of the contents of each package order.

1.2.3 Framework agreements

A Framework agreement is an agreement between the Employer and one or more contractors, the purpose of which is to establish the terms governing orders to be awarded during a given period, in particular with regard to price and, where appropriate, the quantity envisaged. An order, on the other hand, is an instruction to provide work under a Framework agreement. Framework agreements enable the Employer to procure on an as-instructed basis (call offs) over a set term without committing to any quantum of work. Such agreements do not bind the Employer to make use of such agreements to meet its needs. The Employer may approach the market for work falling within the scope of work of the Framework agreement, whenever it considers that better value in terms of time, cost and the quality may be obtained.

The issuing of orders to consultants with framework agreements covering the same scope of work may be made with or without requiring competition amongst such consultants. Competition amongst such consultants for orders takes place where there is no justifiable reason for issuing an order to a particular consultant, the terms in the order are insufficiently precise or complete to cover the particular requirement, or a better quality of service can be obtained through a competitive process.

1.3 Use of material

The Employer intends using the information provided by the Consultant for purposes including:

- inputs into end of stage deliverables 3 to 9;
- inputs into the work of others and the administration of contracts;
- inputs into the tender evaluation process; and
- professional advice regarding decisions to be made in connection with the subject matter of the services.

Task specific use of information provided by the Consultant is set out in the Task Order.

2 Description of the services

The services over the term of the contract may include:

- a) multi year portfolio and project cost and cashflow estimate projections;
- b) reporting financial information aligned to the reporting requirements of DHET and the PICC;
- c) cost planning and cost estimation for identified projects;
- d) the establishment of the control budget and the controlling of costs on a project;
- e) value engineering and value management;
- f) inputs into feasibility studies with cost analyses, cost-benefit analysis and life-cycle costing;
- g) the management of the development of procurement documents and the procurement process from the advertisement of tenders to the award of the contract;
- h) the compilation and finalisation of procurement documents, the leading of tender processes and the evaluation of submissions and the development of tender evaluation reports;
- i) certification of the total of prices for a package order in management contract (NEC3 Engineering and Construction Contract - Option F) negotiated with a contractor is fair and reasonable;

j) acting in accordance with the provisions of the NEC3 Engineering and Construction Contract or the Engineering and Construction Short Contract under the delegation of project manager or the Employer to deal with all cost aspects of the contract, respectively, for example:

- 1) NEC3 Engineering and Construction Contract perform the delegated functions such as the assessment of cost (clauses 25.2, 25.3, 40.6, 45.1, 45.2), the acceptance of proposed subcontract conditions (clause 26.3), the assessment of the amount due for payment (clause 50), certifying of payment (clause 51), the forecasting of the total Defined Cost (clause 20.4) and the assessment of the *Contractor's* share (clauses 53.1 and 53.3)
- 2) NEC3 Engineering and Construction Short Contract perform the delegated functions such as:

Clause	Action
42.1	Assess the cost of an uncorrected Defect
50.4	Correct any wrongly assessed amounts due and notify the Contractor of such corrections

- j) reviewing procurement documents prepared by others; and
- k) assisting with the evaluation of submissions including the evaluation of quality and the preparation of evaluation report.

3 Existing information

Existing information, if any, pertinent to a Task Order shall be identified in the Task Order.

4 Specifications

4.1 General

4.1.1 The Consultant shall in the provision of the services observe all relevant statutes, by-laws and associated regulations, standards of professional conduct and industry norms established in relevant South African national standards published in terms of the Standards Act of 2008 or standards recommended by professional associations.

4.1.2 The Consultant shall take into account the information provided by the Employer when providing the required services.

4.1.3 The Consultant shall provide the services in accordance with the relevant provisions of the *Standard Scope of Professional Services associated with the delivery of a Package* (see Annexure 2) as a cost manager and, if required, as a procurement leader.

4.1.4 Costs shall be benchmarked against the DHET Building Cost Unit For Space and Cost Norms For Buildings and Other Land Improvements at Higher Education Institutions

4.2 Production information requirements

4.2.1 Construction requirements shall be described in terms of South African national standards published by the South African Bureau of Standards where such standards exist and their scope covers such requirements.

4.2.2 Construction requirements shall not be described in terms of a part of SANS 1200, *standardised specification for civil engineering construction*, if such requirements fall within the scope of a part of SANS 2001, *construction works*.

4.2.3 Construction requirements for buildings and structures which are required to comply with the requirements of National Building Regulations shall be described in terms of a part of SANS 2001, *construction works*, where such standards exist.

4.2.4 A bill of quantities shall not be used as a substitute for production information.

Note: The *Standard Scope of Professional Services associated with the delivery of a Package* defines production information as information which provides the detailing, performance definition, specification, sizing and positioning of all systems and components enabling either construction (where the constructor is able to build directly from the information prepared) or the production of manufacturing and installation information for construction.

4.3 Standard systems of measurements

4.3.1 Bills of quantities where required, shall be prepared in accordance with the provisions of the following standards:

- a) Standard System of Measuring Builders Work – Edition 7 (2015) published by the Association of South African Quantity Surveyors
- b) Civil Engineering Standard Method of Measurement – Southern African Edition – CESMM3 published by ICE-SA, a joint division of the South African Institution of Civil Engineers and the Institution of civil Engineers.

4.3.2 Elemental costs estimates shall be prepared in accordance with the provisions of the Association of South African Quantity Surveyor’s Guide to Elemental Cost Estimating and Analysis for Building Works 2013.

5 Constraints on how the services are to be provided

5.1 Reporting and attendance at meetings

5.1.1 The Consultant shall prepare in a format acceptable to the Employer progress reports for tabling at fortnightly project meetings and to accompany invoices for payment.

5.1.2 The Consultant shall attend regular design and / or site co-ordination meetings with the Employer’s project management team as well as adhoc meetings convened to deal with specific issues that may arise.

5.1.3 The Consultant shall promptly provide information required for the reports which the Employer and / or the project management team are required to prepare e.g. quarterly Presidential Infrastructure Co-ordinating Committee reports on key performance indicators.

5.2 Close out stage cost report

The close out report shall include the following:

- a) an elemental cost analysis, developed in accordance with the Association of South African Quantity Surveyor’s Guide to Elemental Cost Estimating and Analysis for Building Works 2013, in respect of each building type identified in the DHET Building Cost Unit for Space and Cost Norms For Buildings and Other Land Improvements at Higher Education Institutions, based on final costs and record information; and
- b) the assignable square meters for each building type and the gross square meterage of the buildings.

5.3 Facilities and equipment to be provided by the Consultant

The Consultant shall provide all equipment and facilities required to provide the services relating to required service.

5.4 Communications

All communications with the Employer which are made in terms of the contract should be made using the standard templates provided by the Employer. Reference to the Framework agreement description shall at all times precede any project related communication.

5.5 Document management system

The Consultant shall provide documents in accordance with the requirements established in the Task Orders.

5.6 Invoices

Invoices submitted shall be a Tax invoice if the Consultant is registered for VAT. The invoice shall comply with requirements, if any, established by the Employer.

5.7 Vendor registration

The Consultant shall complete vendor registration forms before the first assessment date. Such forms and the submission requirements shall be obtained from the Employer.

6 Information and other things provided by the Employer

No facilities or equipment are provided by the Employer.
