Closing date: AS PER TENDER INVITATION

### **SECTION 1: PRELIMARIES & GENERAL**

|   | Quantity | Rate | Amount |   |
|---|----------|------|--------|---|
| SECTION NO. 1   |          |      |        |   |
| BILL NO. 1  |          |      |        |   |
| PRELIMINARIES   |          |      | e      |   |
| PRELIMINARIES   |          |      |        |   |
| i) The NEC3 Engineering and Construction Short<br>Contract (Second edition of June 2005 with<br>amendments of April 2013) in conjunction with the<br>Contract Data is taken to be incorporated herein   |          |      |        |   |
| ii) The tenderer is deemed to have taken cognizance of<br>the above mentioned documents for the full intent and<br>meaning of each clause. These clauses are referred to<br>by clause number and heading only   |          |      |        |   |
| iii) The amount of Preliminaries to be included in each monthly payment certificate shall be assessed as an amount prorated to the value of the work duly executed in the same ratio as the preliminaries bears to the total of prices excluding any contingency sum and the amount for Preliminaries |          |      |        |   |
| iv) Where the initial contract period is extended, the monthly charge shall be calculated on the basis as set out in (iii) but taking into account the revised period for completing the works  |          |      |        |   |
|   |          |      |        |   |
|   |          |      |        |   |
|   |          |      |        |   |
|   |          |      |        |   |
|   |          |      |        |   |
|   |          |      |        |   |
| Carried to Collection   |          | R    |        |   |
| Section No. 1 PRELIMINARIES   |          |      |        | - |
| Bill No. 1<br>PRELIMINARIES AND GENERAL   |          |      |        |   |

Item No

| v) The amount or the items of the Preliminaries are adjusted to take account of the theoretical financial effect which changes in time or value (or both) have on this section. Such adjustments shall be based on adjustments in the following categories as recorded in the Bills of Quantities:  |      |   |   |  |
|---|------|---|---|--|
| <ul> <li>a) an amount which is not varied, namely fixed</li> <li>b) an amount which is varied in proportion to the contract value, namely value related; and</li> <li>c) an amount which is varied in proportional to the construction period as compared to the initial construction period excluding revisions to the construction period for which the contractor is not entitled to adjustment in terms of the contract, namely Time Related</li> </ul> |      |   | · |  |
| Where no provision is made in Bills of Quantities to indicate which of the three categories in (v) apply or where no selection is made, the adjustments shall be beased on the following breakdown:   |      |   |   |  |
| <ul><li>a) 10 percent is Fixed</li><li>b)15 percent is Value related</li><li>c) 75 percent is Time Related</li></ul>  |      |   |   |  |
| The adjustments of the Preliminaries shall apply not withstanding the actual employment of resources in the execution of the works. The contract value used for the adjustment of the Preliminaries shall exclude any contingecy sum and the amount for Preliminaries   |      |   |   |  |
| CONDITIONS OF CONTRACT  |      |   |   |  |

|   | Quantity | Rate | Amount |   |
|---|----------|------|--------|---|
| SECTION NO.2  |          |      |        |   |
| BILL NO. 1  |          |      |        |   |
| ALTERATIONS   |          |      |        |   |
| PREAMBLES   |          |      |        |   |
| For Preambles refer to "Department of Public Works:<br>Specification of material and methods to be used -<br>PW371"   | e e      |      |        |   |
| REMOVAL OF EXISTING WORK:   |          |      |        |   |
| Note:   |          |      |        |   |
| NATURE OF WORK Tenderers are advised to visit the site and to satisfy themselves as to the nature and extent of the work to be done and provide in their tenders for any items not specifically mentioned which they may deem necessary for the proper completion of the work. Tenderers are advised that the adjacent existing buildings will be in occupation during the progress of the work and due allowance must be made for the work being carried out at such times and in such manner as will least interfere with the routine of the occupants and as may be directed by the Principal Agents |          |      |        |   |
| DIMENSIONS The Contractor is advised to take all dimensions affecting the existing buildings on the site, as he will be held solely responsible for all new work being of the correct sizes.  |          |      |        |   |
| CLEANING OF SITE: The Contractor should allow for removing of rubble from site on daily basis, failing which the client might stop the construction until the site has been cleaned. None of the old stock bricks from the pulling down are to be re-used for any new work.   |          |      | ·      |   |

Item No

| PIPES, ETC. Special care is to be taken not to   | 1 |   | Ī |   |
|--|---|---|---|---|
| interfere unnecessarily with any water supply pipes or other piping that may be met with and found necessary to disconnect or cut, are to be effectively stopped off and any new connections that may be necessary are to  |   |   |   |   |
| be made with proper fittings and to the satisfaction of<br>the Principal Agents to whom due notice must be given<br>of any alterations to the existing services.   |   |   |   |   |
| PROTECTION In taking down and removing existing work the utmost care is to be observed to avoid any structural or other damage to the remaining portions of the buildings. The Contractor must also protect all work not removed such as walls, floors, doors, windows or other joinery, loose and fixed fittings and electrical appliances, etc., from damage during the progress of the work and provide all necessary materials for so doing. The Contractor will be held solely responsible for any damage to persons or property and for the safety of the structure throughout the whole of this Contract and must   |   |   |   |   |
| make good at his own expense any damage that may accor.  |   |   |   |   |
| CREDITS, ETC. Old materials from the pulling down (except such as are described to be re-used or handed over) are to become the property of the Contractor who shall allow credit as provided for in the summary at the end of these Bills of Quantities. Old materials for re-use are to be carefully removed, stored and protected from injury including making good any damaged or defective parts as required before re fixing. Old materials described to be handed over are to be carefully removed and neatly stacked on site where directed. The remainder of the old materials and all rubbish to be immediately carted away and the site left clean and unencumbered. None of the old stock bricks form the pulling down are to be re-used for any new work. |   |   |   |   |
| MATERIALS, ETC. The materials to be used and work to be done to be similar in all respects to that described for new work insofar as they concur. All work in making good is to be properly jointed to the existing.   |   |   |   |   |
|  |   |   |   |   |

|---|---|----------|------|--------|---|
|   | SECTION NO. 3   |          |      |        |   |
|   | BILL NO. 1  |          |      |        |   |
|   | <u>FOUNDATIONS</u>  |          |      |        |   |
|   | PREAMBLES   |          |      |        |   |
|   | For Preambles refer to "Department of Public Works:<br>Specification of material and methods to be used -<br>PW371"   |          |      |        |   |
|   | SUPPLEMENTARY PREAMBLES   |          |      |        |   |
|   | Nature of ground  |          |      |        |   |
|   | The nature of the ground is assumed to be sandy weathered granite, therefore "earth", but possibly interspersed with "hard rock"  |          |      |        |   |
|   | Excavation for working space in rock  |          |      |        |   |
|   | Notwithstanding clause 11 page 8 of the Standard System of Measuring Building Work, excavation for working space in rock will be measured in cubic metres to the extent executed and given as "extra over" bulk excavation or trench and hole excavation as the case may be |          |      |        |   |
|   | Carting away of excavated material  |          |      |        |   |
|   | Descriptions of carting away of excavated material shall be deemed to include loading excavated material onto trucks directly from the excavations or, alternatively, from stock piles situated on the building site  |          |      |        |   |
|   | Filling   |          |      |        |   |
|   | Notwithstanding the reference to prescribed multiple handling in clause 1 page 6 of the Standard System of Measuring Building Work, prices for filling and backfilling shall include for all selection and any multiple handling of material                                |          | 6    |        |   |

|            | PREAMBLES   |          |      |        |   |
| 1          | For Preambles refer to "Department of Public Works:<br>Specification of material and methods to be used -<br>PW371"   |          |      |        |   |
|            | SUPPLEMENTARY PREAMBLES   |          |      |        |   |
|            | Cost of tests   |          |      |        |   |
|            | The costs of making, storing and testing of concrete test cubes as required under clause 7 "Tests" of SABS 1200 G shall include the cost of providing cube moulds necessary for the purpose, for testing costs and for submitting reports on the tests to the architect. The testing shall be undertaken by an independent firm or institution nominated by the contractor and to the approval of the architect. (Test cubes are measured separately) |          |      |        |   |
|            | Breeze concrete   |          |      |        |   |
|            | Breeze concrete shall consist of twelve parts clean dry furnace ash, free from coal or other foreign matter, to one part cement (12:1), the ash graded up to particles which will pass a 16,5mm ring from a minimum which fails to pass a 4,75mm mesh. The finer materials from the screening are to be first mixed with the cement into a mortar and the ash added afterwards and thoroughly incorporated  |          |      |        |   |
|            | Carried to Collection   |          | R    |        | - |
|            | Section No. 3 BUILDINGS BIII No. 2 CONCRETE, FORMWORK & REINFORCEMENT   |          |      |        |   |

| <u>Formwork</u>   |   |   |
|---|---|---|
| Description of formwork shall be deemed to include use and waste only (except where described as "left in" or "permanent"), for fitting together in the required forms, wedging, plumbing and fixing to true angles and surfaces as necessary to ensure easy release during stripping and for reconditioning as necessary before reuse  |   |   |
| The vertical strutting shall be carried down to such construction as is sufficiently strong to afford the required support without damage and shall remain in position until the newly constructed work is able to support itself   |   |   |
| Formworks to soffits of solid slabs etc shall be deemed to be slabs not exceeding 250mm thick unless otherwise described  |   |   |
| Formwork to soffits of slabs, beams, etc shall be deemed to be propped up exceeding 1,5m and not exceeding 3,5m high unless otherwise described   |   |   |
| Formwork to sides of bases, pile caps, ground beams, etc will only be measured where it is prescribed by the engineer for design reasons. Formwork necessitated by irregularity or collapse of excavated faces will not be measured and the cost thereof shall be deemed to be included in the allowance for taking the risk of collapse of the sides of the excavations, provision for which is made in "Earthworks" |   |   |
