Authors should observe closely the use of alphabetic order for sources published in the same year (Mamabolo, 2023; Sebola; 2023; Tsheola & Sebola, 2023).
4. Multiple-Authors (more than two): Authors are advised to mention all the authors at first use within the text and state first author’s surname *et al.* in subsequent uses (all authors must be mentioned in the list of references). Authors are advised to use ampersand (&) instead of the word “and” for multiple authors sources (Sebake & Ramolobe, 2024).
5. Where there is more than one reference from the same author(s) in the same year, they should be identified using letters “a”, “b” and so on, after the year of publication (Motubatse, 2024a) or (Motubatse, 2024b).
6. References should be arranged in alphabetic order at the end of the paper; under the heading References; and this heading and citation details or references should not be numbered.
7. Acknowledgements should be inserted at the end of the paper just above the list of references, under the heading acknowledgements and should not be numbered.
